### **HCT LTD – An Introduction**

HCT is a privately owned company located in South East Ireland. The Company was founded in 2008 focusing primarily on encouraging individuals to attain the skills and knowledge for both personal development and career advancement. The company's foundations were solid with a wealth of experience from both business partners in horticulture and training and development. Seven years on we are one of the most popular centres for land-based training, with 2015 being our busiest year yet.

As the Horticulture sector continued to be HCT's flagship we quickly built up a solid, reliable reputation with our clients, this led HCT to diversify its training portfolio to include a range of personal and professional development programmes, as demanded by our growing client base. All programmes are delivered by tutors with extensive training experience who deliver training to the highest standards as set by HCT. We offer both centre based and off site training nationwide, with a flexible approach to scheduling and delivery, as we tailor programmes to meet the specific needs of learners. In addition, HCT offers whole business and company specific consultancy. It has also built up an impressive media profile, with regular contributions to national press and academic journals on a wide variety of topics related to training and life sciences.

### **Why Choose HCT?**

HCT focus heavily on delivering practical, interactive training. Our clients in the past have enjoyed our flexible approach to training, which ensures we can tailor our programmes and delivery methods to suit each individual group.

All our trainers have completed a comprehensive induction process before delivering a course. By really listening to our trainers and the feedback from clients we have separated the wheat from the chaff. Our repertoire of trainers consists of industry professionals with a passion for training, this experience provides them with up to date industry practices, which can be energetically delivered to learners.

### **We Have The Figures To Prove It**

In June 2009 Hughes Consultancy and Training became a recognised QQI Centre since then we have accredited 10884 component certificate, 85 major awards which is 10969 in total up to December 2015. HCT head office is located in Kilkenny City and we deliver training programmes nationwide, HCT have ranked as a number 1 centre in a number monitoring reports completed by QQI.

### **Our Approach to Delivering Training**

HCT provides comprehensive training materials for learners and also provide after-course consultation/support if and when required.

The HCT approach to delivering training is to make training as enjoyable and experiential as possible ensuring that participants achieve their full potential. We believe in delivering progressive, innovative and interactive training and our training style reflects this.

*"People rarely succeed unless they have fun in what they are doing."* Dale Carnegie

### **FETAC, QQI and Common Award System**

In November 2012 QQI was established under the Qualifications and Quality Assurance Education and Training Act, to replace the 4 existing awarding bodies and quality assurance responsibilities in Ireland. (FETAC, HETAC, NQAI AND IUQB)

A new national awards system called the Common Award System has been introduced and by 2014 all FETAC Awards will be part of this system.

Under the Common Awards System (CAS) all FETAC awards will have a common structure, and common characteristics and features such as title, level, volume, profile, assessment and grading. These common awards will be published on [www.qqi.ie](http://www.qqi.ie) and available to all FETAC registered Providers. Programmes leading to these common awards must be submitted from the Centre for validation and approved by FETAC prior to delivery.

Former awards, originally developed by NCVA, FÁS, Fáilte Ireland, Teagasc and BIM, are currently being migrated to the new format - the Common Awards System. As soon as this exercise is completed for each level, the former awards will be deactivated and will no longer be available as a basis for certification.

In the Common Awards System, Providers may not offer programmes for certification unless the programmes have been validated by FETAC. Validation is the process through which FETAC determines that the programme developed by the Provider is fit for purpose; that it will give the profiled Learner the opportunity to meet the standards for the award(s), that it is appropriate to the Learner and that it fulfils the award requirements.

Each major award under the common award system will be awarded a total set amount of credits and these credits will need to be accumulated through achieving a number of minor awards.

# HCT

Progressive, Innovative & Interactive Training

QQI AWARD

To see HCT's Validated Programmes

The programme duration will be determined based on the credit value and its recommended length. These will be broken into two sections, directed and self directed hours. Directed hours are the hours directly spent delivering the programme to the participant either face to face or via direct online contact. Self directed hours are where the learner takes control of their learning, this could include work experience, research or reading subject related information.

Participants will be able to import a limited amount of credits from a level lower or higher than the award they are working towards. The credit value system has been created in Ireland to become more in line with other European countries and to provide learners with more mobility and recognition.

Level	Credit Values for Major Awards	Default Minor Credit Values	Other Permitted credit Values	Special Purpose and Supplemental Awards
L1	20	5	10	Not Appropriate
L2	30	5	10	
L3	60	10	5,20	5 and 60
L4	90	10	5,15,20	5 and 90
L5	120	15	5,15,30	5 and 120
L6	120	15	5,15,30	5 and 120

You need to be careful and know what award you are getting from a programme. i.e. is it a component certificate or is it a major award? You can generally judge by the number of contact hours. A minor award or component certificate can be completed in 30 or more contact hours. Whereas a major award will take you 240 or more contact hours to complete. However you can be sure if you enrol on a programme which has FETAC accredited courses that the organisation delivering the programme has been through a rigorous quality assurance check and that the programme is monitored independently by FETAC to ensure they

### From QQI Guidelines for Preparing Programme Descriptors, May 2010

#### Guideline Directed and Self-Directed Duration Ranges

These tables are intended as a guide for providers in establishing programme durations. Providers can devise directed/self-directed ratios that fall outside the guidelines set out below. Where this is the case, the provider may be required to supply additional details that support a rationale for an exceptional duration.

#### Directed Hours:

Directed hours are the hours the provider spends directly delivering the content of the programme to the learner. They include class contact, direct online contact, assessment and laboratory time. They can include work-based direction, where there is a tutor and or instructor on-site delivering content.

#### Self-Directed Hours

Self-directed hours are the hours where the learning is learner-lead. They include practice time, work experience, preparation, study time and reflection time.

<i>Special Purpose, Supplemental and Minor Awards</i>				
	Credit Values	Typical Learner Effort in hours	Programme Directed Range	Programme Self-directed Range
Levels 1-6	5	50	15-50	0-35
	10	100	30-100	0-70
	15	150	50-130	20-100
	20	200	80-160	40-120

## How do I know what level to do?

### Learner Profile – Level 3

This programme is open to mature and young adult/school leavers who have either an interest in, or are working in a related role, and wish to achieve a relevant certificate, or feel they would benefit from developing basic skills in this sector. There are no minimum entry requirements. Applicants will have the opportunity to advise of any special learning requirements on application/registration. It is expected that participants will have a reasonable level of literacy, numeracy and interpersonal skills, and come from a wide range of social and cultural backgrounds. Participants will be expected to engage in some independent learning/practical work outside the formal learning structure of the course. Generally learners engaging in this programme are ready to take on a new task in a personal capacity or role. Learners can follow straightforward instruction/direction and are moving towards independent learning in a small range of areas of interest. They can also read basic short text non-supported and can make sense of information and familiar and unfamiliar tasks can be carried out in familiar and unfamiliar settings.

### Learner Profile – Level 4

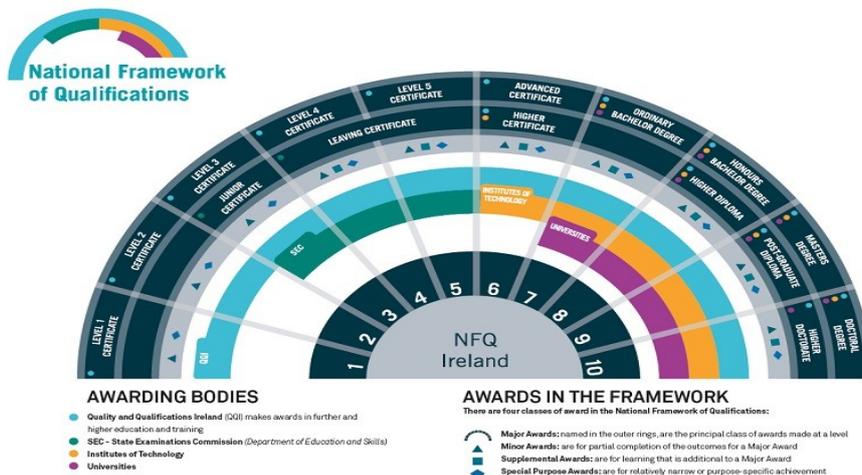

This programme is open to mature and young adult/school leavers who have either have an interest in, or are working in a related role and wish to achieve a relevant certificate. There are no minimum entry requirements. Applicants will have the opportunity to advise of any special learning requirements on application/registration. It is expected that participants will have a reasonable level of literacy, numeracy and interpersonal skills, and come from a wide range of social and cultural backgrounds. Participants will be expected to engage in some independent learning/practical work outside the formal learning structure of the course. Generally learner's entering this programme will be comfortable reading, drafting, preparing and understanding personally relevant information, including quantitative information. Learners are capable of solving problems independently or as part of a group.

### Learner Profile – Level 5

This programme is open to both mature and young adult/school leavers who have either an interest in or are working towards achieving certification in the chosen area. Participants applying for this award should hold a level 4 and/or leaving certificate and/or have relevant life and work experience. Applicants will have the opportunity to advise of any special learning requirements on application/registration. It is expected that participants will have a reasonable level of literacy, numeracy and interpersonal skills, and come from a wide range of social and cultural backgrounds. Participants will be expected to engage in some independent learning/practical work outside the formal learning structure of the course. Generally learner's engaging in this programme will be proficient at reading, drafting, preparing and understanding information across a broad range of topics, including quantitative information. Learners may also solve predictable problems well, independently and as part of a familiar and less familiar group and participate well in a chosen area of expertise using a range of tools and procedures, responsibly and autonomously.

### Learner Profile – Level 6

This programme is open to mature and young adult/school leavers who have either an interest in this area, or are working in a related role and wish to achieve a relevant certificate. Entry requirements are a relevant Level 5 qualification and/or relevant life experience. Applicants will have the opportunity to advise of any special learning requirements on application/registration. It is expected that participants will have a reasonable level of literacy, numeracy and interpersonal skills, and come from a wide range of social and cultural backgrounds. Participants will be expected to engage in some independent learning/practical work outside the formal learning structure of the course. Generally learner's entering this programme can fluently read, draft, prepare and understand complex information, including quantitative information, that is personally relevant and reflecting a broad knowledge base. Learners can also solve problems well, independently and as part of a range of different groups, accepting personal responsibility for the quality of the outcome.

## Information to Learners

In order for HCT to process your certificate they will require information from you this will include your FULL NAME as per birth Certificate or Passport, your correct PPS Number and your Date of Birth as it is a QQI Requirement, we will also require your highest level of education and or your relevant work experience in order to gain acceptance onto the programme.

HCT will also ask for your address details and telephone number so we can submit certification for you.

Please note furnishing HCT with false, misleading or incomplete information relating to a booking may cause denial of a learner's course.

Most of our programmes will run between 3 to 6 weeks, depending on the programme the deadline for assessments will be:

- Levels 3 – 5: Participants will have 4 weeks to complete their assessments
- Levels 6 – Participants will have 6 weeks to complete their assessments

The Information Provided when booking a programmes will be used to send certificates out, Please make sure we have the correct address as there could be a cost associated with Certification Re-issue, please note, if you are completing the booking form on behalf of other supervisors please communicate this information to them to avoid confusion.

As these programme will be delivered to adults HCT will not make contact with learners or supervisors if assessments have not been received. It is the sole responsibility of learners to ensure assessments are received on time.

## Submitting your assignment

A receipt must be placed in front of your assignment and returned directly to your tutor or HCT. Assignments submitted after the agreed deadline will NOT be accepted by HCT for correction, except where the learner has followed the HCT policy on the Submission of Late Assignments. Assignments that are incomplete, falling apart or illegible will not be accepted for submission. Any additional paperwork handed up by participants must be signed, dated and numbered in the correct order. Participants must save and retain a copy of all submitted assignment work. Participants must post in assignments by registered post. Once HCT have received the assignment in their head office they will process it and send an email to the person that has booked or paid for the programme confirming they have received it.

After certification, HCT will keep all assignments for a period of 1 year. Participants may wish to request their assessments to be returned to them and HCT are happy to oblige this request. Please note there is an administration and courier cost of €15 applied to this service. All assessments are securely destroyed 12 months after the certification date. In the case of plagiarism, assessments will not be returned to the participants

Participants will also need to sign the following declaration

**Participant Declaration:** I declare that all of the work submitted for this assessment is my own and that no part of it has been copied from any source material unless referenced, including any group work undertaken. I also confirm that I have not given anyone my work to submit part or all of the assignment I understand that by doing this could also jeopardise my assessment as will be seen as taking part in plagiarism. I understand that if any part of the assignment submitted for this assessment is found to be plagiarized, certification will be withheld until an investigation has been carried out.

## Assessment Receipt

On arrival each assessment will independently be checked in by a HCT staff member that works closely with the Internal Verifier, there job is to ensure that we have received the assessment in full, log the date or receipt (ensuring it is within the given time frame) check that learners have completed the assignment receipt declaration and send an email to the person that has booked or paid for the programme confirming they have received it. At this point a marking sheet will be printed and when the date line has past the Internal Verifier will be notified.

## Assessment Marking by Assessor

Once all assessments have been received the internal verifier will contact a subject matter expert who has experience in the field to assess all the assessments in that sector due for submission. Each assessor will be provided with a marking scheme that has been well developed and elaborated on the existing assessment criteria, this is to ensure fair and constant assessment of learners work. Each learner will have their own independent making sheet and assessors will be required to complete a report on each completed group they have marked.

## Internal Verification

Each Centre must internally verify all the results and assignments. The internal verifier is nominated by the centre and is usually an employee of the centre. Their role is to ensure that all assignments are present and correct, marks are correctly added and that everything is in order for the visit of the External Authenticator.

## External Authenticator

Each Centre must appoint an External Authenticator to visit the centre and validate their results. FETAC have established a panel of External Authenticators from which the centre must choose a suitable EA. The EA will visit the centre and assess a sample of the awards the centre is offering. They can adjust marks of the learner. Their role is to ensure the national standard is being maintained by the centre.

### Results Panel

The Centre must establish a results panel. This can consist of the centre manager and some subject experts and those familiar with QQI and its assessment processes. Their role is to review the internal verifier and external authenticator reports. Their final judgement stands. Once the centre has gone through the 3 stages above, they can then submit their results to QQI for certification. All of the above is done in line with QQI key dates.

### Results Letter Policy

HCT will send out a letter of results to individual learners and to CE Scheme Supervisors/ Learner Representatives of results that have been externally authenticated by an External Authenticator.

For each module/component in which the required standard has been achieved, a candidate gains credits or a Minor Award. Modules/components at Levels 1, 2 and 3 are classified as Successful where a learner has achieved all the outcomes required. Modules/components at Levels 4, 5 and 6 are graded as follows:

Pass = 50% - 64%      Merit = 65% - 79%      Distinction = 80% - 100%

### Reasonable Request of Accommodation

HCT will facilitate learners who may need extra support/resources. Reasonable accommodation could include various aids during the programme for a variety of reasons, including literacy issues, disability, or extensions on your assessment etc.

### Please Note

Extensions are only granted in exceptional circumstances and must be requested in advance and in writing. Valid excuses include bereavement, serious illness, an accident or other serious personal issues. Where possible these should be supported by documentary evidence. If you are experiencing problems you should inform HCT as soon as possible.

### Not Happy with your Result?

Only approved results can be formally appealed by the learner. Consequently, the Hughes Consultancy and Training Limited appeals process is enabled when:

- all results have been approved through the results approval process
- learners have been issued with the approved results flagging the opportunity to appeal
- a request for an appeal has been received within 14 days of the issue of approved/final results

### Programme Review

In order to ensure that the programme is relevant and up-to-date it will be reviewed against the background of the methods and standards currently applied in Industry. We do this by:

**Client Mid Programme Monitoring Review Report:** HCT will carry out Client Mid programme monitoring reports as part of all programmes, these reports facilitate in developing HCT programmes.

**Mid Programme Review:** All learners must complete a Mid Programme Evaluation Form. Tutors are requested to ensure that this form is completed correctly and in full with valid and relevant comments on improvement etc.

**Learner/Tutor Feedback:** Meetings that take place with the tutor and learners during a training programme are to be documented .

**Client End of Programme Feedback:** At the end of each programme HCT contacts the client for feedback, this is to ensure continuous development of programmes.

**End of Programme Review:** The purpose of this meeting is to highlight any issues or problems and to discuss the development and improvement of the programme going forward so as to ensure consistent improvement in programme delivery etc.

### End Programme Learner Feedback

All learners are required to complete the End of Programme Feedback Form. HCT requests that tutors ensure these forms are completed in full with relevant suggestions and remarks.

**Participant Feedback of Assessment:** 6 – 8 weeks after learners have received their results HCT will contact them with a request for feedback on the assessment process

**Post Programme Feedback:** Learners will receive a provisional results letter once External Authentication has been carried out. On receipt of this letter learners have 2 weeks to appeal their result.

**Programme Review:** Programme reviews will take place throughout the year, tutors deemed experts in their chosen subject will be required to attend a meeting with HCT to review and improve programme content and assessment.
